

Travel grant Adelina Gutiérrez SOCHIAS

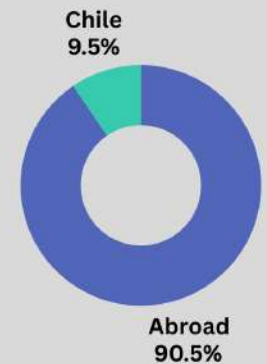

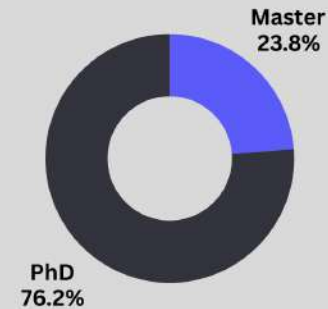

Dedicated to Dr. Adelina Gutiérrez, the first Chilean woman to earn a PhD in astronomy

The Chilean Astronomical Society (SOCHIAS) seeks to support the participation of Master's and Doctoral students in Astronomy, Astrophysics, and related fields from Chilean institutions in conferences, scientific schools, and internships, either in Chile or abroad, by funding travel expenses, registration fees, and/or airfare through the Adelina Gutiérrez SOCHIAS Scholarship.

SOCHIAS has awarded the Adelina Gutiérrez SOCHIAS scholarship in a monthly basis for a total of 150 students in the past 10 years. This is a significant number of students, and it shows that the scholarship is having a positive impact on the astronomy and astrophysics community in Chile.

From April to September 2023, we awarded 21 travel grants (approximately 8,000 US dollars), of which 14 were to female graduate students presenting their work at international conferences.
